HOPKINSVILLE KENTUCKY, TUESDAY, OCTOBER 6, 1914.

No. 120

Editorial Comments.

Louisville now has an ordinance imposing a heavy fine for false claims in an advertisement. Why reflect upon the character of Louisville's business men? The public usually finds out the unworthy and newspapers do not knowingly advertise frauds. This ordinance is in keeping with a bill once introduced in the Kentucky Legislature requiring circuses to show everything they advertised. It created amusement for a day and that was the end of it. If the Louisville Council wants to legislate on this subject, let it pass an ordinance requiring every business and professional man—doctors especially—to advertise in the newspapers.

The Mayfield Messenger says of the 100 grocers in Graves county only seven or eight of them ever do any advertising. Among Hopkinsville's grocers are numbered some of the most wide-awake citizens, whose advertisements are familiar to all readers of the papers. But there is only one Hopkinsville on the map.

John Markham, brother of President Charles Markham, of the Illinois Central Railroad Company, had a narrow escape when struck by a freight train at Princeton Saturday. He stepped in front of the approaching train unawares, and was knocked several feet, suffering bruises, but no serious injury.

With 15,300,000 bales of cotton in the South that cannot be exported, why not let the people get the benefit of cheap cotton goods once more? This might obviate the necessity of an act of the legislature to regulate the length of a bedsheet and provide every shirt with a whole tail.

Pierre Lanze, a Belgian soldier, was decorated by King Albert with the cross of the Order of Leopold because, in a recent battle, he killed fourteen German soldiers and the colonel of their regiment.

A special term of the Franklin Circuit Court has been called for October 19 to try Secretary of State C. F. Creelius, indicted on charges of obtaining money by false pretenses.

The Princeton Presbytery, embracing churches of the Presbyterian denomination in Caldwell and several adjoining counties, will convene today at Fredonia, for a three days' session.

Gavrio Prinzip, who killed Archduke Ferdinand and his consort and started the big war, will be placed on trial November 5. It all depends on who tries him.

England's Indian soldiers, who have been chafing under delay, have arrived in France tied to death that they finally got there before the war was over.

Congressman Stanley says the rumor that he is to locate is unauthorized.

The Clarksville, Paducah and Owensboro fairs are all on this week.

Peace Sunday was observed all over the country.

Nice Promotion.

W. E. Reynolds, Jr., who has been assistant superintendent under Mr. W. L. Mitchell, superintendent of the Kentucky Central Insurance Co., in this city, has been promoted to the position of superintendent of the Paducah district. Mr. Reynolds went to Paducah yesterday and took charge. His family will join him a little later along.

As Others See Us.

A great many Henderson people have attended the Pennyroyal fair at Hopkinsville this week. Over six thousand people paid admissions Friday and the fair is said to be the best held in this section of the state. The purses are fat and among the race entries could be found several widely known horses.—Henderson Gleaner.

BANK IN HANDS OF DEPUTY

Cashier A. H. Eckles, of Planters Bank, Will Wind Up Affairs of Closed Bank.

HE HAS EXECUTED BOND.

Allowed Three Months To Liquidate and Distribute.

State Banking Commissioner Thos. J. Smith has appointed Cashier A. H. Eckles, of the Planters Bank & Trust Co., special commissioner to wind up the affairs of the Farmers & Merchants Bank, of Pembroke, which closed Friday. The assets of the bank are supposed to be \$92,000 and Mr. Eckles has executed bond for half that amount and has taken charge of the books.

Under the law it will be three months before a final report is to be made. For the present the bank will not be able to resume business.

ALONE AND UNMATED

The Last Wild Pigeon Is Dead And Species Is Wiped Out.

With the death of the passenger pigeon last week at the Cincinnati Zoological Garden, the species becomes extinct. For six years it has been known that this lone pigeon, a female, thirty years old, was the last one of her race. Now that she is gone another black chapter in the natural history of this country closes. Eleven species of North American wild birds have been wiped out of existence by man. Twenty-three other species are rapidly diminishing and some are approaching the vanishing point. Bird conservation may prevent the extermination of other species, saving to the world these remnants that would otherwise be swept away as the wild or passenger pigeon.

PRAYERS FOR PEACE

Union Service Held at Grace Church Last Sunday Afternoon.

A union service was held at Grace Episcopal church Sunday afternoon, pursuant to the President's proclamation, to pray for peace. The formal address of the meeting was delivered by Rev. C. H. H. Branch, of Westminster Presbyterian church. All of the ministers in the city took part in the services.

Shot From Ambush.

Princeton, Ky., Oct. 4.—Claude Mitchell, a young man residing here, an employee of the Illinois Central Railroad Company, was shot from ambush by unknown parties. Mr. Mitchell was working at night, having charge of the pumping engine, and he says that a short time before he was shot he had order two alleged "hoboes" to leave the pumping house.

The wound is not considered dangerous, being a flesh wound of the leg.

Died at State Hospital.

Mrs. Belle Truitt, a patient from Crittenden county, died at the Western State Hospital, Saturday, of general paralysis of the insane. She was 56 years old and had been in the institution eight months. Burial at the hospital.

THE BIG FAIR HAS FINISHED SUCCESSFULLY

Nothing Marred The Big Event From Beginning To Ending.

HANDSOME PROFIT MADE.

Lists of Awards Not Heretofore Given Are Found In This Issue.

Nothing marred the success of the Pennyroyal Fair, which closed Saturday afternoon. Faultless weather prevailed all the week and the attendance was highly satisfactory. There were increased exhibits in every class and the receipts will show a handsome profit. A dividend of 16 per cent last year was declared. There is a demand that the profits this year be expended in enlarging the buildings.

This year \$7,000 was distributed in racing prizes and this attracted some of the best trotting, pacing and running horses in the country. A new track record of 2:10 was set for pacing and other fast time was hung up. The horse shows were great society events four nights.

The poultry show was declared by Judge H. A. Pickett to be the premier event of the year and twice as good as last year. There were over 1,500 entries, comprising chickens, turkeys, pigeons, etc.

In the agricultural department there was a fine display of all sorts of farm produce. The best ten ears of corn shown at the state fair at Louisville, was also entered here, but failed to win. The prize winning watermelon weighed sixty-one lbs. The cattle barn, hog pens, and sheep pens were filled with some of the finest stock in the state.

The awards not heretofore printed in the Kentuckian except poultry are given to-day.

The one thing that interfered with the pleasure of the people was the appearance early in the week of pickpockets who made a few robberies. Plain clothes men were put into the crowds and it soon got too hot for the thieves.

There were so many attractive exhibits that it is hard to particularize. The truck farm exhibit of W. R. Brumfield, the farm produce exhibit of R. C. Gary and the floral exhibit of T. L. Metcalfe made one section of the floral hall especially attractive. All were highly creditable.

The Jennie Stuart Memorial Hospital had an emergency hospital on the grounds, but only a few faints were treated on the crowded days.

HON. L. P. TANNER AT COURTHOUSE

Opens Democratic Campaign In a Strong Speech For Ticket.

HEARD BY A GOOD CROWD.

Circuit Court Took Recess To Allow The Use of The Courtroom.

Hon. L. P. Tanner, of Owensboro, addressed a good crowd of voters at the Courthouse yesterday afternoon at 1 o'clock, speaking for an hour in the interest of Beckham, Camden and Kinehele.

Judge Hanbery had circuit court to take a recess for the speaking. Mr. Tanner's address was a strong and able plea for Democratic unity and for the support of the National administration.

POSTOFFICE TO BE MOVED

This Week Into The Y. M. C. A. Building on Ninth Street.

The Government officials on Saturday wired Postmaster Williamson authority to contract with the Y. M. C. A. board for the building on Ninth street and the trade was made at once. Necessary repairs are now under way and the work of moving will be begun tomorrow. As it is only across the street, this is not expected to be a difficult job and there will be but little interruption in the service. A platform will be erected in the alley on the south with steps to the height of one of the windows to make a side entrance to the building. It will have to be used five or six months.

HATCHET IS BURIED

Former Editor of Harper's Spends Peace Sunday at White House.

Washington, Oct. 5.—President Wilson and George Harvey, formerly editor of Harper's Weekly, but now of the North American Review, whose controversy over the support of Harper's Weekly furnished one of the chief incidents of Mr. Wilson's campaign for the Presidency, celebrated "peace Sunday" by a harmonious meeting at the White House. It was their first meeting since their talk in 1911 in the presence of Henry Watterson, editor of the Louisville Courier-Journal, which gave rise to Mr. Watterson's later attacks on Mr. Wilson and led Mr. Harvey to support Speaker Champ Clark for the Presidential nomination.

Mr. Harvey called at the White House at the invitation of Mr. Wilson to discuss the European situation and the fall campaign. In the last issue of his magazine, Mr. Harvey praised the President's attitude since the outbreak of war in Europe, and suggested that he wait patiently for the psychological moment to urge peace.

Weather For Week.

Washington, Oct. 4.—Rainy weather over most of the East and South was forecast by the Weather Bureau tonight for the first half of the coming week. "Over the lower lake region, the Middle Atlantic States and New England, however," the bulletin said, "the rains may be delayed until Tuesday or Wednesday, and then continued until near the end of the week with somewhat low temperatures."

CONFLICTING CLAIMS ON ALL SIDES

German Attacks Are Repulsed and Left Wing of Army Moving Forward.

GERMANS DENY ANY DEFEAT.

Situation Throughout Entire Theater of War Becomes More Favorable.

Paris, Oct. 5.—The official announcement issued by the French war office reports progress in the region of Seissons, where several German trenches have been taken.

The battle on the left wing is in full swing, without decisive result.

A dispatch to the Central News from Antwerp, dated Sunday night, says:

"The Germans have been repulsed. They asked for a two-hour armistice to bury their dead, but the Belgians refused to comply.

"The Belgians have destroyed all the bridges over the River Nethe. The Germans attempted unsuccessfully to rebuild the bridges."

Germans Take Rosy View.

The following German official statement was received here last night by Marconi wireless:

"The situation throughout the entire theater of war becomes daily more favorable to German arms.

"The Austro-Hungarian commander-in-chief, Archduke Frederick, and the heir presumptive to the Austro-Hungarian throne, Archduke Charles Francis, have inspected the greater part of the Austrian northern army and expressed themselves well satisfied with the splendid warlike spirit among the troops.

"Russian troops that crossed the Carpathians and entered the district of Marmaros have been driven back in disorder in the direction of the Galician frontier."

Commission Government.

The cities of Owensboro and Hopkinsville, on Nov. 3, will vote on the question of whether or not they will have a commission form of government.

This is an election, which if received favorably by the voters, will be of more importance to the future welfare of the community than any other form of local election. For regardless of the quality, honesty and intentions of local officials under the present system of government in our large and small cities and even towns, there is bound to be waste, inefficiency and backwardness that will be changed into economy, greater accomplishment and up-to-date management and progressiveness if the business of the city is put into the hands of three or five sound business men who are able to conduct the affairs of the municipality upon scientific principles as they would an enterprise of their own.

The great majorities of cities which have adopted this governmental reform are delighted with it and pronounce it a grand success. We trust that the voters of these cities will be the vanguard of many such reforms in this way in this section of Kentucky.—Uniontown Telegram.

Auto Owners Hit.

Democrats of the Senate subcommittee on finance voted to substitute for the tax of two cents a gallon on gasoline in the war revenue bill, a tax on owners of 25 cents per horse power on automobile sales by manufacturers. An owner of a thirty horse power car would pay an annual tax of \$7.50 and a manufacturer selling such a machine would pay \$30.

Death of An Infant.

An infant son of Mr. J. Logan Gresham died at the home of its parents in the city Sunday. The interment took place in the family burying ground, near Sinking.

WHITE MUSLIN AGAIN IN SPORTING CLOTHES

PRETTY MATERIAL HAS COME
BACK TO ITS OWN.

Newest Gowns Have All Sorts of Gar-
nitures to Show Them Off—Major-
ity of the Sleeves Are
Cut Long.

Some of the prettiest of the new
gowns are made of the material be-
loved of poets and novelists, white
muslin. One of these has the skirt
and tunic scalloped round the hem,
the bodice being embroidered in front
and on the tops of the sleeves. Most
of the white gowns have black silk or
moire belts, almost all of them fasten-
ing in front. A sailor's knot or a sim-
ple little tie is also in black. As a
neck finish collars are preferred to
frills. The latter, when worn, are
flat, rising high on the back of the
head and meeting on the chest. Some-
times the bodice is set into an em-
broidered yoke, which extends down
the center of the sleeves to the el-
bows in a point.

Sleeves are in all kinds of shapes
and in a variety of lengths, whether
on dresses or blouses, but the
"child's" sleeve is fast disappearing.
It was too loose to be pretty. The
majority are long. Nearly all have
cuffs. Some have frills of lace falling
over the hands. The sleeve that
reaches midway between elbow and
wrist is preferred by some. Evening
sleeves grow shorter and shorter.
Some are represented by a band of
flowers crossing the shoulder and at-
tached to front and back of the gown.

There are slit-up petticoats to wear
with tight skirts, and there are un-
derskirts with steel run through
them for wearing with peg-top skirts.
A shaped flounce is added on to these,
cut very narrow and curved away
from the outer part of the legs. Night-
gowns are cut lower than ever, and
are very elaborately trimmed with
lace and embroidery. Boudoir caps
are still in fashion, but it is the mode
to call them negligee.

Beaded tunics are still much worn,
and more popular than any other vari-
ety are the black net embroidered
and fringed with white or crystal
beads. Next in favor come black
and silver and black and gold. One
tunic with three rows of fringe carried
out in beads must be very heavy la-
wear, but it is quite short in front,
dipping to a point at the back. The
line of evening bodice continues to
be rather high on the shoulders, and
sloped in front to a meeting point
varying in length. Should this be
very low a small bib, or vest, is car-
ried across the chest, not headed, but
made of lace or gathered tulle, white,
black or a color.

NECKWEAR OF EVERY KIND

Apparently Only Thing Is That They
Must Suit the Costume and Be
Fresh and Dainty.

Neckwear, conspicuous by its ab-
sence for several seasons, has become
one of the most important features
of women's dress.

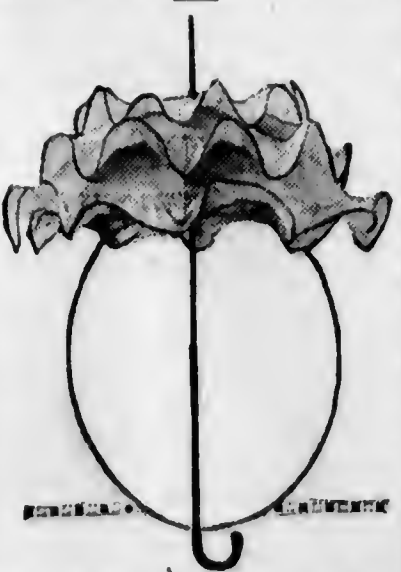

Instead of the necks cut low in the
back have appeared high Medici col-
lars, most of them wired to preserve
the desirable high effect.

Then there are the soft, unwired
styles which stand or fall, but all
showing a flaring effect.

Materials differ.
There are the very thin organdies,
muslins, chiffons and laces, which
have to be wired to hold them in
place, then the heavier materials such
as linen and pique, and all of them
made either plain, embroidered in eye-
let or French embroidery, or as fanci-
ful as may be desired.

Collars were once considered too
frivolous for women to wear, but the
styles this season are the daintiest
bits one could imagine, adding a touch
of chicness to an otherwise plain
waist.

WHITE, WITH BLACK VELVET

Parasol of White Satin With Border
of Black Velvet.

Frocks and Hats Match.
Busy mothers are now making
frocks and hats to match for their
small daughters.

These sets are very attractive in
colored linens, scalloped and embroi-
dered in white.

The hats usually have the buttoned
crown so that they may be laundered
and the frocks are semi-tailored, scal-
loped around the neck, sleeves and
down the front.

DESIGNERS SHOW SOME GOOD
NEW EFFECTS.

"Dressing the Part" is a Thing in
Which Women Take Vital Inter-
est, and the Fact Has Been
Recognized.

By MARY DEAN.

Sporting clothes are a matter of the
moment and each new sport that is
taken up by women means an addi-
tional costume, or perhaps several ad-
ditional costumes, in the summer out-
fit. Dressing the part is the corner-
stone of the average woman's interest
in sports, and though each year the
designers turn out sporting costumes
more appropriate as well as more be-
coming than those of the previous
year, attractiveness must not be sacri-
ficed to practical utility if the model
is to succeed in winning feminine
approval.

Auto or Sport Coat.

There are rough
Norfolk suits for
tramping and var-
ious short skirts
with the accom-
panying blouses
and sweaters and
proper boots.

The skirt for
tramping should
be very short, and
there is no choice
of footwear at
least, as the boots
must always be
made of short tan
leather. These
heavy boots must
have wide, thick
soles and flat
heels, and if they
are well made, the
sole should be perfectly flexible.

For the general utility tramping
costume, nothing has ever taken the
place of the old standby—the Norfolk
suit. This has been modified and
varied in a number of ingenious ways,
but it retains the characteristic Nor-
folk cut.

This serviceable suit can be had in
various materials, in the durable cor-
duroy khaki, which is durable enough
in reality and handsome when new,
but soon grows to look shabby under
hard usage, and in the new English
worsted and tweeds, homespun and
serges which seem to have been in-
vented for this particular purpose.

The skirts of these suits are always
short, at least from six to nine inches
from the ground and are never kilts,
except in some cases there is an in-
verted plait.

One tramping suit of the modified
Norfolk cut shown by a firm which
makes a specialty of sporting gar-
ments was of khaki. The suit was a
three-piece affair. There was a
blouse with a roll
collar and fasten-
ed down the
front with a sin-
gle row of but-
tons, and a belt
of the material
which buttoned a
little to the left.
The skirt was
fastened to the
blouse by means
of small steel
clips. The skirt
fastened at either
the back or front.
There was an in-
set piece at the
back and front un-
derneath the but-
toned part to give
more width to the
skirt if desired.
Two large patch
pockets trimmed
the skirt. The
coat was made
with a shaped
yoke to which
were attached, back and front, two box
plaits running from yoke to the bot-
tom of the coat. A belt of the mate-
rial surrounded the coat at the waist-
line—running underneath the box
plaits, and fastened at the front with
a single button.

Warm Wrap for
After the Game.

There is a general utility cape
called the Lancaster cape, made of
Scotch tweed. Such a wrap as this
would be found useful in the out-door
outfit—for either mountain or shore.

Novelties for Small Girls.
Frocks for wee girls made of barred
or plain lawn stamped for embroidery
and already made up and hemmed
cost from 50 cents upward. Linens
and chambrays cost more, but any of
these are a boon to a mother, who
likes to scallop and add the fancy
touches, but who is not clever at cut-
ting out and putting together the dress
itself.

Charming pinafores of colored lin-
ens or of white, embroidered in colors,
make pleasant summer work for those
who plan ahead for Christmas. The
stamped patterns are really attrac-
tive; fluffy kittens, processions of
ducks and floral designs are all ap-
propriate and amusing both to donor
and recipient.

For Stains.

Tomato juice is said to be successful
in many cases in removing ink stains
from white materials, such as hand-
kerchiefs, muslin frills, etc. It must
however, be done as soon as possible
after the mishap occurred. A clean
piece of blotting paper should be laid
under the stain and a slice of raw, ripe
tomato rubbed over the surface, fresh
pieces of blotting paper being substi-

Not A Day In Bed.

Gamling, S. C.—In a letter from
Gamling, Mrs. Lula Walden says:
"I was so weak before I began tak-
ing Cardui, that it tired me to walk
just a little. Since taking it, I do all
the housework for my family of nine,
and have not been in bed a day.
Cardui is the greatest remedy for
women, on earth." Weak women
need Cardui. It is the ideal wom-
en's tonic, because it is especial-
ly adapted for women's needs. It re-
lieves backache, headache, dragging
feelings, and other female misery.
Try Cardui. A few doses will show
you what it can do for you. It may
be just what you want.

A TEXAS WONDER.

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism, and all irregularities of the kidneys and bladder in both men and women. Regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment, and seldom fails to perfect a cure. Send for testimonials from this and other states. Dr. E. W. Hall, 2926 Olive Street, St. Louis, Mo. Send by druggists. Advertisement.

In the Nursery.

The temperature of the nursery should be about 65 degrees F. It is wise to have a thermometer in the room. This precaution is well worth taking, for a not infrequent cause of dyspepsia in the very young is the overheating of the nursery. The night temperature should be about 62 degrees F. As the child grows older it is not necessary to keep the temperature of the room above 58 degrees F. The windows should always be well opened when the child is absent from the nursery and each evening before the child is put to bed. This practice should be followed for a few minutes. To secure adequate ventilation, if there be an open fireplace, is not difficult, either by having the window opened very slightly at the top or by means of the door. It is an excellent idea where practicable to have an adjustable ventilator in the window itself. Currents of air are to be avoided.

One Opportunity.

Recently a lady amateur song writer sent to a popular actress-vocalist the words of a new song which she had written. The actress could see nothing attractive in the song, and read the verses to her husband. "Good heavens!" he exclaimed, when she had finished. "What's she talking about? What does she call it?" "She calls it 'I wonder if He'll Miss Me.'" was the reply. "Well," said the husband, "if he does he ought never to be trusted with a gun again!"

Get a bottle of Sloan's Liniment for 25c of any druggist and have it in the house—against colds, sore and swollen joints, rheumatism, neuralgia, sciatica and like ailments. Your money back if not satisfied, but it does give almost instant relief. Advertisement.

In a Light Comedy Role.

Two washerwomen were one day telling of the progress made by their various lads in their chosen work. "Tell me, Mrs. Casey," asked Mrs. Clancy, "what's your son, John, doing now?" "John's on the stage—he's a light comedian," answered Mrs. Casey. "Ye don't tell me!" exclaimed Mrs. Clancy, "an' would ye mind tellin' me what a 'light comedian' is?" "Well," explained Mrs. Casey, "in me son's case it's this: He plays a silent part behind a black curtain with his mouth to a hole, and in front is a candle, and when Alkali Ike shoots at the candle, John blows it out."—Saturday Journal.

FEW REASONS WHY THEY WENT TO WAR

The Various Nations Defend Their Warfare, According To Views.

The British and German papers, giving the diplomatic correspondence that preceded the war, have been made public. From these according to the New York Independent's compilation, it appears that the various nations involved went to war for the following reasons (accepting each nation's statement of its own case):

Austria—Because Serbia would not permit the Austrian officials to take part in the investigations in Serbia into the responsibility of Servians for the murder of the Austrian Crown Prince and Princess.

Serbia—Because on her refusal to accede to this demand of Austria, on the ground that she would be sacrificing her own sovereignty, and in spite of her proposal to leave the matter to arbitration, Austria attacked her.

Russia—Because Austria was making war on Serbia.

Germany—Because Russia declined to cease mobilizing her army—a mobilization which Germany believed was directed at herself as well as her ally, Austria.

France—Because her ally, Russia, was attacked by Germany.

Belgium—Because her neutral territory, whose neutrality was guaranteed by a treaty signed by Germany, was invaded by German armies.

England—Because Germany had violated the treaty guaranteeing the neutrality of Belgium, of which both Germany and England were signers.

Japan—Because her treaty with England bound her to join with England when the peace in the Far East was threatened.

The impartial historian may some day know how to apportion the final responsibility for the great war among the nations that enter it. We now merely report what each nation has to say for itself.

HELPFUL WORDS

From a Hopkinsville Citizen.
Is your back lame and painful?
Does it ache especially after exertion?

Is there a soreness in the kidney region?
These symptoms suggest weak kidneys.

If so there is danger in delay.
Weak kidneys get fast weaker.
Give your trouble prompt attention.

Doan's Kidney Pills are for weak kidneys.

Your neighbors use and recommend them.

Read this Hopkinsville testimony.
J. H. Hayes, N. Clay st., Hopkinsville, Ky., says: "I had kidney trouble which caused my back to ache. I saw Doan's Kidney Pills advertised, got a box and used them as directed. They soon cured me. It gives me pleasure to recommend this fine remedy."

Mr. Hayes is only one of many Hopkinsville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—If your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Hayes had—the remedy backed by his testimony. 50c at all stores. Dogwood Doings.

Dogwood, Oct. 3.—The tobacco has come out since the rains and we have a fine crop of large tobacco. Some farmers have finished cutting. Early corn will be light but the late planting will be good, if it is not caught by frost before it matures. It is to be hoped that frost will not fall for some time yet, as most very farmer planted a late garden which is doing fine at this time.

Woodpecker Still Packs.

Angered by a woodpecker, which had pecked a hole in the eave of his shanty at the city limits, Bolivar Deck loaded a blunderbuss and lay in wait for the bird. He fired when he saw the red crest appear through the hole. The weapon kicked him against the wall. His wrist was sprained, and three dishes were broken. The shot went through a window and crippled a neighbor's chicken. The cost of the shot amounted to \$4.30. The woodpecker was unharmed.—Connersville (Ind.) Dispatch to Philadelphia Record.

WE EAT TOO MUCH MEAT.

We eat too much meat is the dictum of Dr. Charles F. Boidun of New York, who asserts that owing to this cause in particular persons over forty years of age are dying out faster than they did thirty years ago.

The doctor, however, sees no particular harm in drinking water at meals nor in quenching the thirst with ice water during the dog days. Therein he differs with other physicians. One says do; the other says don't—so what are you going to do about it? The fact is probably that no general rule can be laid down. What's one man's meat is another man's poison is an old saying and very likely a true one. Eating what the system craves is probably as good a rule as any to follow, in the case of a healthy individual. The system will not crave that which disagrees with it, or at least will not repeat the demand.

WORK DESERVES PRAISE.

The city of Prague and the closely attached suburban municipalities of Karlin, Smichov, Weinberge and Zizkov, with a total population of about 500,000, have just completed one of the world's largest underground waterworks systems at a cost of \$5,000,000.

Peruna Did It for Me.

"I find Peruna an excellent spring and summer medicine and am glad to call the attention of my friends to it. I know by experience that Peruna is a good medicine, and always recommend it whenever I have an opportunity. I can truthfully say that I have no traces of my old complaint, and have neither ache nor pain, and enjoy life. Words cannot express my appreciation for the good Peruna has done me."

PERUNA THE SPRING AND SUMMER MEDICINE.

"I used to get cramps in my stomach. I had sick headaches. My stomach nearly killed me. My family physician only gave me temporary relief. I got out of patience and had given up all hopes of recovery. I then wrote to Dr. Hartman and he advised me to take Peruna. I got a bottle of Peruna and commenced using it. Soon got better and am now entirely cured and feel like a new woman. Peruna is my comfort. I will never be without it." Mrs. Thomas M. Morgan, R. F. D. 2, Wadsworth, Ohio.

STATE-WIDE PROHIBITION

Campaign For Kentucky Is Now In Progress.

Lexington, Oct. 2.—It was announced last night that definite plans have been made for the inauguration of a state-wide prohibition campaign at the thirty-fourth annual meeting of the Woman's Christian Temperance union, which began in Winchester Thursday. The movement follows the local option election Monday, in which nine of 12 counties voted dry. The workers at that campaign, it was stated, have been listed in that state-wide movement.

Large Areas Opened to Homesteaders.

Orders signed within the month by Secretary Lane have opened to settlement and entry, under the enlarged homestead law, 3,600,000 acres of land in California, New Mexico, Colorado and Washington. Under the enlarged homestead act lands in the West are examined by the Zoological Survey to determine whether there is any available water supply by which they may be irrigated. If not, they become subject to entry by settlers in tracts of 320 acres each, as against 160 acres under the original homestead law.

HOW TO TREAT CROUP EXTERNALLY

Don't dose delicate little stomachs with nauseating drugs—rub VICK'S CROUP AND SALVE well over throat and chest; in five minutes the breathing is easy and in fifteen minutes the worst cases are relieved. The heat of the body releases antiseptic vapors which are inhaled with each breath, loosening the tough phlegm and clearing the air passages. Absolutely harmless; full ingredients on wrapper. At all drug stores, 25c, 50c and \$1.00. Liberal sample on request. Vick Chemical Co., Greensboro, N. C.

CIRCUS PROMISES ANIMAL ACTORS

Many Stars of Dumb Kingdom Including Comedians on Way with Ringling Bros.

PONIES FOR THE KIDDIES.

"Mr. Dooley" Enjoying an Early Morning Repast in Ringlingville.

From the time the trained kangaroos, "Big Bob" and "Long Tom," start their three-round boxing bouts with their sparring partners, until the clown bear, Tony, cuts his capers in the hippodrome track, there is not an idle moment in that portion of the Ringling Brothers' circus program which has been dedicated to trained animals.

The kangaroos, who wrestle and leap hurdles in addition to giving fist exhibitions, are exceptional among animal talent, and the clown bear possesses a real sense of humor. But accompanying these performers are scores of others even more marvelous.

There are three troupes of wonderful seals who play at basketball, ride horses, give concerts on fourteen different musical instruments and perform feats of juggling which surpass human attainments. There are five herds of trained elephants including the famous nursery troupe of pickanniny pachyderms. These pondrous fellows dance the latest tangos, give an imitation of a minstrel band, operate and talk over telephones, play at cards and billiards and walk ropes. There are a dozen bands of beautiful horses and knowing ponies. These are seen in a progression of dances extending from the quadrille to the modern hesitation waltz and the "grape vine."

Other troupes reared upon their hind legs, march to the ra-ta-tat-tat of drums like soldiers, jump through great barrels or, standing in them, are whisked out of the rings. Still others of snow-white coats, pose as silent as marble statues in representations of great paintings.

Added to these are trick mules, pigs, goats, cats, gee-e, and dogs that pose in living pictures or ride horseback. There is a troupe of every wild and domestic animal known to the trainer's art and each has its clown. Ringling Brothers are to exhibit here Wednesday October 21.—Advertisement.

REALLY THE GREAT PROBLEM

Curious Student Offered Question Far More Puzzling Than the Professors'.

The conversation at a recent social affair ran to great problems, when Representative Samuel A. Witherspoon of Mississippi was reminded of the question of a learned professor.

The professor in question was instructing a class in natural philosophy, and during the lecture he paused and impressively looked at the class.

"If a hole were bored through the center of the earth, from side to side," said he, "and a ball dropped into it, would it come to a state of rest?"

"Pardon me, professor," interrupted a young man, "will you permit me to ask what I consider a greater question in that connection?"

"Certainly," was the prompt response of the professor. "I am very glad to have you ask any questions."

"What I want to know is this," smilingly returned the young man, "how are you going to get that hole through?"

NEWS BY TELEPHONE.

For a monthly payment of about \$1.50 two Berlin publishers have offered to supply telephone subscribers in the German capital with a combined telephonic news and musical service. It is understood that subscribers will be rung up at regular intervals throughout the day, and a voice will tell them the news of the hour from all parts of the world, stock exchange prices, sporting results and everything of interest at the moment.

The telephonic newspaper is by no means a new idea, for a good many years ago the Telefon-Hismondo, or Telephone News, was published in Budapest. The staff consisted of one managing editor, four subeditors, ten reporters and a number of "tellers," or telephone speakers. The subscribers, of whom there were several thousands, took up at a certain hour every day telephone receivers supplied to them by the paper and listened to the news which was spoken to them by a "teller" in the editorial office.

CROQUET PLAYED BY GAULS.

The game of croquet, which has again become so popular, is of an ancient origin, having been invented by the Gauls. It was then known as jeu de mail, and was so extensively played that promenades were strewn with these games, until the avenues were called the "mails," but in 1660, when Charles II introduced it into England, the name was anglicized into pall mall, from which the noted London thoroughfare has derived its name.

THE GREATER PERIL.

"I know a man who has worked for twenty years in a powder mill." "Does he fear an explosion there?" "Not half as much as he does at home."—Baltimore Sun.

NO PLACE TO LOOK.

"There is one queer thing about looking for official timber." "What is that?" "The seekers never take to the woods."

Not Our Bailey.

Bailey Russell has gone to New York to take dancing lessons from Mr. and Mrs. Vernon Castle, the famous dancing masters. "It is his intention to teach classes in dancing."—Madisonville Hustler.

Summit, N. C.—In a letter received from this place, Mr. J. W. Church, the notary public, says: "My wife had been ailing for nearly 12 years, from female ailments, and at times, was unable to leave the house. She suffered agony with her side and back. We tried physicians for years, without relief. After these treatments all failed, she took Cardui, and gained in weight at once. Now she is red and rosy as a school girl." JAPAN'S GROWTH AS NATION

Cogent Reasons Why Foreign Communities in Country Hold Unfriendly Sentiments.

T. Miyaoka, formerly councillor in the foreign office, is a widely known lawyer practicing in Tokio and Yokohama. He says:

"There is a historic cause to the growth of anti-Japanese sentiment among certain sections of the foreign community in Japan. During the regime of foreign consular jurisdiction foreigners regarded themselves as a superior and a privileged class. The comparatively infantile stage of Japan's material civilization, the system of segregation under which foreigners lived in Japan, their absolute ignorance of the Japanese language and literature, their exemption from the territorial jurisdiction, all combined to make foreigners sincerely believe that they belonged to a much superior type of humanity. The abolition of consular jurisdiction, the resumption of judicial, fiscal and administrative power by Japan over foreign residents in the country, the result of the two foreign wars that Japan had waged within ten years, the abolition of the system of foreign settlement, the growth of more intimate relations both commercial and industrial between Japanese and foreigners, all these facts combined to give to a much larger percentage of foreigners in Japan a more correct and intimate knowledge of the Japanese character, things and life.

"On the other hand, the awakening of the Japanese people to their power, their aspirations to become a world power, their keen desire to compete with Europeans and Americans in the neutral markets of the world have created a sense of resentment among the minor section of the foreign community. Thus foreigners in Japan are divided into two camps, pro and anti-Japanese, and it is the minority that makes the loudest noise."

WOULD BRIGHTEN A HOME

Possibilities in the Presence of "Old-Fashioned Grandmother" in the Family.

One need only scan the "Situation Wanted" column of the daily papers to find that women workers are wandering away from beaten tracks and trying out their moneymaking ideas.

One finds also that because a woman is getting along in years she does not meekly resign herself to the notion that she has no earning capacity. She simply sets her wits to work and originates a niche for herself—one where maturity is the very thing that is required.

Here is an advertisement which recently appeared in a newspaper: "AN OLD FASHIONED GRANDMOTHER wants a position to supervise studies of school children, including music, Latin and reading aloud; can also do the darning and mending at the home."

We can all think of homes where just such a woman is needed—oh, so badly!—a home where either there is no mother or one who is an invalid, unable to cope properly with the demands of a growing brood of school children.

Can't you imagine how valued an "old-fashioned grandmother" would be in such an establishment—one who could mend rents in garments and draw up the big holes that will creep into stockings, and "hear lessons?" It would not be necessary for her to know music and Latin. Just the simple branches—the "three Rs," so to speak, would be enough, especially if coupled with the art of rendering aloud or telling stories when lessons were done.

"Lady Policeman" to Quit.

Bayonne's policewoman, Miss Ruth McAuley, said that she would resign. "I don't want to watch spooners; it is a mean job," said Miss McAuley. "I wouldn't be the cause of lovers losing their henchmen in the park. Let some one else do it."

"Besides, I have received too much notoriety. The position of lady policeman would be all right, but when your name gets into every newspaper in the country you strenuously object."

All the members of Bayonne's playground commission were made special policemen by Mayor Bert Daly. Miss McAuley, by virtue of her position as secretary to the commission, received the appointment of policeman. She intends to tender her resignation.—New York Times.

The Robin.

Senator Cummins was talking about a notorious interlocking director.

"This interlocking director," he said, "declares that, if we curb his activities the poor will suffer terribly. I ask myself, though—is he really speaking on behalf of the poor or on his own behalf."

"He reminds me of a man who stopped in terrific indignation at sight of a group of boys stoning a bird that was tied to a tree by the leg."

"You scoundrels! You pitiless scoundrels!" cried the man.

"And he took the bird up in his hand and placed it in his bosom tenderly."

"The next day at the office he was heard to remark with a chuckle:

"By gosh, you know, broiled robin on toast isn't half bad!"

Ordinary Golfing.

So long as President Wilson does not become too able a player the country will look with favor on his golfing. There is always something very human about a bad golfer.—St. Louis Republic.

YEAR'S SUPPLY OF BABIES

Facts Compiled by Statistician Will Come to Many as Something of a Surprise.

It has been computed that about 36,000,000 babies are born into the world each year. The rate of production is therefore about 70 per minute, or more than one for every beat of the clock.

With the one-a-second calculation every reader is familiar, but it is not every one who stops to calculate what this means when it comes to a year's supply. It will, therefore, probably startle a good many persons to find, on the authority of a well-known statistician, that, could the infants of a year be ranged in a line in cradles, the cradles would extend around the globe.

The same writer looks at the matter in a more picturesque light. He imagines the babies being carried past a given point in their mother's arms, one by one, and the procession being kept up night and day until the last hour in the twelfth month had passed by. A sufficiently liberal rate is allowed, but even in going past at the rate of 20 a minute, 1,200 an hour, during the entire year, the reviewer at his post would have seen only the sixth part of the infantile host.

In other words, the babe that had to be carried when the tramp began would be able to walk when but a mere fraction of its comrades had reached the reviewer's post, and when the year's supply of babies was drawing to a close there would be a rear guard, not of infants, but of romping six-year-old boys and girls.

BADLY AFFECTED BY WIND

Prodigious Speed of Projectiles in Warfare Has Been Known to Overcome Soldiers.

That the wind of projectiles causes the death of soldiers is a theory advanced by Professor Laurent of Brussels, who read a paper on this subject before the French Academy of Science. During the Balkan war, Professor Laurent said he had noticed soldiers who, seemingly, were troubled from cerebral disturbances, although having escaped a bullet. Sometimes the victims became cataleptic and in less serious cases there were symptoms of fainting, tingling sensations and partial paralysis.

In instances where this mysterious affliction caused death, autopsies were held and these invariably revealed no nervous lesions. Then it occurred to Professor Laurent that the variations of atmospheric pressure caused by the passing of the projectile had an effect upon the nerve cells, causing inhibition.

Dr. Matignon, during the Russia-Japan war, reported similar cases, particularly after a severe bombardment. As projectiles gain not only in size but in speed, as the years go on, just what the toll from wind will be in the next great conflict is hard to forecast.

Air Pressure in Musical Instruments.

In an interesting article in the "Philosophical Magazine," Mr. Foord refers to Dr. Stone's table of wind pressure required to play various notes of the scale on various wind instruments. The table indicates that as the notes rise higher in the scale the air pressure necessary to produce them increases with most wind instruments, although not with all. In the clarinet, for example, the pressure decreases from the low notes to the high ones, varying from 15 inches of water to 8 inches. Mr. Foord repeated these experiments on the clarinet and saxophone, playing the whole range of notes first loudly and then softly. For the clarinet it is found that the pressures fall as the notes rise, agreeing with Doctor Stone's table, although the inverse law holds good for the oboe, bassoon, horn, cornet, trumpet, euphonium and cornet. With the saxophone it is found that the pressure corresponding to notes at the beginning and end of the register are equal, the pressure rising to a maximum at the note D about half-way through the scale.

Pittsburgh Cleanup.

The glad tidings have gone forth that for the first time in history Pittsburgh has a regularly organized squad of policemen whose duty it is to protect women from insults, to scour the streets for loafers, to scan the moving-picture shows, patrol the parks and maintain a generally vigilant eye for "mashers." If this squad is gifted with the ordinary sense of sight it will find work to do at the start right in the midst of the business center. It can start in on Fifth avenue and Smithfield street at most any hour of the day or evening, and before reaching Market street can gather up a patrol wagon load of the most obnoxious characters that infest the city.—Pittsburgh Post.

Little Girl Traces Thief.

When Philadelphia policemen were baffled in their efforts to recover a dress stolen from the automobile of Frank Miller of 2235 Chadwick street, twelve-year-old Jeanette McLoughlin came to the aid of bluecoats. She had traced the stolen garments by means of heads which dropped from it as the thief fled. The policemen took up the clue offered by the girl and found that it led to a moving picture theater. Sure enough, inside they found the garment. They arrested a man who gave his name and address as Patrick Henry of Vine street west of Fifteenth, and charged him with the theft.

RAT-INFESTED ENGLISH CITY

Sheffield Is Moved to Seek Relief From
a Veritable Plague of
Rodents.

Sheffield, England, is crying aloud
for help from a pest of rats. The
wail of the rat-infested city is car-
ried to the United States through an
official report on the situation made
by Mr. Luther J. Parr, United
States deputy consul, who calls upon
"American rat exterminators" to
show what they can do in the shape
of aid. He says, according to the
New York Evening Telegram:

"An opportunity will shortly occur
in Sheffield to demonstrate the value
of American rat exterminators. What
is known as the killing shambles and
the fish and meat market, located
right in the center of the city, are to
be pulled down in accordance with
the new town-planning scheme of the
city authorities."

"When this does occur it is recog-
nized by the public that the home of
millions of rats will be destroyed
and articles and letters appearing in
the local newspapers recently urged
the corporation to do something to
prevent the migration of this vermin."

"The steel works and large stores
in this city are very largely infested
with rats, and I understand many at-
tempts have been made to extermi-
nate them. In the works, however,
very little damage is done by rats,
and it is the rule to occasionally em-
ploy a professional rat catcher, who
catches about 100 rats a night, and
is paid £1 (\$4.87) for a night's work."

"Such a profession is no doubt in-
fluenced by the fact that there is a
ready sale to sporting men for the
rats caught, for training their dogs."

A LOOK AHEAD

"Why, what's the matter, child?"
"Boo—booooo! I'm skeered that
when I grow up I may marry a real-
headed fellow, and I hate red hair!"

ELECTRICAL VACUUM WASHER.

An electrically operated washing
machine has been developed which
cleanses clothes by forcing water
through them instead of rubbing
them on a corrugated surface. A
continuous flow of water is main-
tained through the fabrics by creat-
ing an air pressure and a vacuum on
opposite sides of the mass of clothes
being washed. The washer is de-
signed to be attached to twin station-
ary tubs of any size or make. The
machine can wash, wring or rinse si-
multaneously or separately as de-
sired. All parts of this washer are
accessible, easily removable, and are
also interchangeable. All the rapid-
moving parts are incased in oil. The
machine is operated by a small motor
of the inclosed type. It is equipped
with a ball-bearing wringer with in-
closed gears, reversible waterboard
and quick-safety-release lever.—Elec-
trical World.

EXCEPTIONS.

He (assertively)—What this world
needs as its workers are men of stay-
ing qualities.

She (wearily)—Yes, maybe, as
workers, but not as callers.

WHY NOT?

"Our laundress has no sense of the
fitness of things."

"What's she doing?"

"Pressing my glad rags with a sad
iron."

WELL MEANT.

"What is your alma mater, Mr.
Nurich?"

"Well, if you insist, I'll take a cig-

THE THRICE-A-WEEK EDITION
OF THE NEW YORK WORLD

Practically a Daily at the Price
of a Weekly. No other News-
paper in the world gives so
so much at so low a price.

This is a time of great events, and
you will want the news accurately
and promptly. All the countries of
the world steadily draw closer to-
gether, and the telegraph wires
bring the happenings of every one.
No other newspaper has a service
equal to that of The World and it
relates everything fully and prompt-
ly.

The World long since established a
record for impartiality, and any
body can afford its Thrice-a-Week
edition, which comes every other
day in the week, except Sunday. It
will be of particular value to you
now. The Thrice-a-Week World also
abounds in other strong features,
serial stories, humor, markets, car-
toons; in fact, everything that it to
be found in a first class daily.

THE THRICE-A-WEEK! WORLD'S
regular subscription price is only
\$1.00 per year, and this pays for
156 papers. We offer this unequalled
newspaper and Hopkinsville Ken-
tuckian together for one year for
\$2.65.

The regular subscription price of
the two papers is \$3.00.

WILL USE LARGEST TURBINES

Rapid Transit Company of New York
Is Installing Record Current-Pro-
ducing Engines.

The largest turbines in the world
are now being built by the Westing-
house company for the power station
of the Interurban Rapid Transit com-
pany, East River and Seventy-fourth
street, New York. They will supply
sufficient electric current to operate
135 fully loaded ten-car trains accom-
modating 135,000 people.

Each turbine—there are three—will
be directly connected to a dynamo
which will deliver 30,000 kilowatts, or
about 41,000 horse-power, and at full
overload each machine can deliver
36,000 kilowatts, or practically 50,000
horse-power, for a short period of
time.

The amount of steam used and the
enormous amount of cooling water re-
quired for the condensers afford fig-
ures that are positively astonishing
to the layman. Each unit will use
about 350,000 pounds of steam per
hour, and to condense this steam so
that all the benefits of a vacuum may
be obtained in connection with the
low pressure unit each turbine must
be provided with a condenser contain-
ing 50,000 square feet of cooling sur-
face. To insure this the condenser
will contain 36 miles of brass tubing
one inch in diameter. The necessary
amount of cold water for circulation
through the tubes will be drawn from
the East river, and through each con-
denser there will be passed every
hour 4,500,000 gallons of water. To
pump this amount of water through
the condensers for the eight units
which will be ultimately installed calls
for a tunnel twelve feet four inches
wide and twelve feet four inches in
height.

FISH HOOK RECOVERS BODY

Passengers From Passing Train Drag
River After Boy Is Knocked
Off Bridge.

Using the boy's own fishing rod in
grappling for his body, passengers on
a Susquehanna and Western train that
had knocked Phil Colombo from a
bridge near Babbitt, N. J., into the
river, succeeded in hooking his coat
and dragging the body to the surface.
The lad, who lived at Twenty-third
and Palisade avenue, West New York,
was fishing on the edge of the railroad
bridge with John Elchlar, when the
train due at Hackensack at 12:56 came
along.

The Elchlar boy just managed to es-
cape injury, the pilot of the engine
grazing his heel. The Colombo boy
was struck on the side of the head
as he tried to swing away from the
rail. Engineer Vrooman saw the boy
fall into the river, stopped the train,
and the passengers hurried to the
scene. Several boys who were swim-
ming near by dived time and again,
but without success.

Then the passengers took turns with
young Colombo's fishing rod, and final-
ly the hook caught in the lad's coat.
The body was dragged to the bank and
taken on the train to Hackensack.

Impressed the Child.

Representative John C. Floyd of Ar-
kansas is one of the mildest-mannered
trust busters that ever set foot in the
house judiciary room, but he has a
voice like the roaring bull of Bashan,
and when his voice, gestures and shak-
ing, shaggy mane all get into action at
once the sound of Niagara is but a
foolish whistle by comparison.

A child sitting in front of Floyd,
when in action, must get the impres-
sion he is watching Vesuvius blow off
a couple of million tons of lava. And
it was a child who sat through an ad-
dress of Floyd's the other day. The
Arkansas trust buster was delivering a
little talk in a church one evening,
and in the well-known words of the
amateur reporter, "he held the audi-
ence spellbound."

After it was all over the little child
was led, amazed and blinking, out
into the starlight. He grasped his
mother's hand warmly, and asked in a
frightened whisper:

"Mamma, was that the Lord talking
in church?"

Disaster of a Century Ago.

Several lives were lost and much
property destroyed by an explosion of
gunpowder which occurred at Wool-
wich 100 years ago. Woolwich is the
most ancient military and naval ar-
senal in England. In its dockyard men-
of-war were built as long ago as the
beginning of the sixteenth century.
The royal arsenal contains a factory
for the making of shells and car-
tridges and a mammoth foundry for
casting armor and ordnance, in addi-
tion to vast magazines of great guns,
powder and other warlike stores. The
Royal Military academy, where offi-
cers are trained for the British army,
also is a part of the institution. Dur-
ing the centuries of its existence the
arsenal has been the scene of many
disastrous fires and fatal explosions.
One of the most recent of the explo-
sions occurred in 1903 and resulted in
the death or serious injury of more
than thirty persons.

Long Island Farmers Organize.

Ezra Tuttle is a Long Island farmer.
He followed to market a bushel of
beans, which brought him thirty cents
a bushel, and found that the consumer
paid \$1.50 for them. The Long Island
farmers have decided to maintain a
bureau of markets for the purpose of
getting some, at least, of this differ-
ence between \$1.50 and 30 cents. Ezra
Tuttle is at the head of the move-

CASTORIA

The Kind You Have Always Bought, and which has been
in use for over 30 years, has borne the signature of
Dr. J. C. Fletcher, and has been made under his per-
sonal supervision since its infancy. Allow no one to deceive you in this.
All Counterfeits, Imitations and "Just-as-good" are but
Experiments that trifle with and endanger the health of
Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Pare-
goric, Drops and Soothing Syrups. It is pleasant. It
contains neither Opium, Morphine nor other Narcotic
substance. Its age is its guarantee. It destroys Worms
and allays Feverishness. For more than thirty years it
has been in constant use for the relief of Constipation,
Flatulency, Wind Colic, all Teething Troubles and
Diarrhoea. It regulates the Stomach and Bowels,
assimilates the Food, giving healthy and natural sleep.

Home-Made Ointment.

The following is a recipe for a sim-
ple home-made ointment, which is ex-
cellent for applying to cuts and
bruises: One teaspoonful each of olive
oil, turpentine, spirits of camphor and
coal oil. Of course, any amount de-
sired may be made, but the proportion
must be as given here.

Shadows.

"Could you sing that song about the
twilight when the flickering shadows
softly come and go?" said the
mental youth. "Sir!" exclaimed the
lady at the piano. "I don't approve
either of the current fashions in
gowns or of the promiscuous refer-
ences to them."

REV. GOODNIGHT DIES

Son-in-Law of Mr. D. M. Whitaker, of Casky.

The Rev. James Lincoln Goodnight, 68 years old, stated clerk and treasurer and general traveling secretary of the General Assembly of the Cumberland Presbyterian Church, died at 5 o'clock Friday afternoon at Red Boiling Springs, Tenn., where he had been ill for ten days with heart trouble.

Mr. Goodnight was president of West Virginia University in 1895-97 and president of Lincoln, Ill., University, 1900-04.

Mr. Goodnight was born in Allen county, Kentucky. He served pastorates at various places in Kentucky, at Nashville, Tenn., at Covington, O., and Waynesburg, Pa. The body was taken to Nashville Sunday and the funeral took place there.

Mr. Goodnight leaves a widow, who was formerly Mrs. Edna Whitaker Perry, to whom he was married a year or two ago, in this county.

Masonic Sign Saves

Fifty Citizens' Lives.

The power of free Masonry is illustrated by a story told by a citizen of Louisville, who with the Masonic sign, says he saved fifty of his fellow citizens from being shot to death by German troops.

This group of citizens, according to the recital of the Belzian Mason, had been lined up for execution. The German firing squad had their rifles at "present arms" when the narrator gave a Masonic sign. The German officer commanding the firing squad happened to belong to the craft. He recognized a brother Mason and ordered the Louvain Free Mason to leave the ranks. This meant sparing his life. The Louvain citizen, however, refused, saying:

"My fellow citizens are no more guilty than I am. If you are going to kill them, I shall be killed with them." The German officer thereupon ordered the release of the entire party.
